# Capilano College
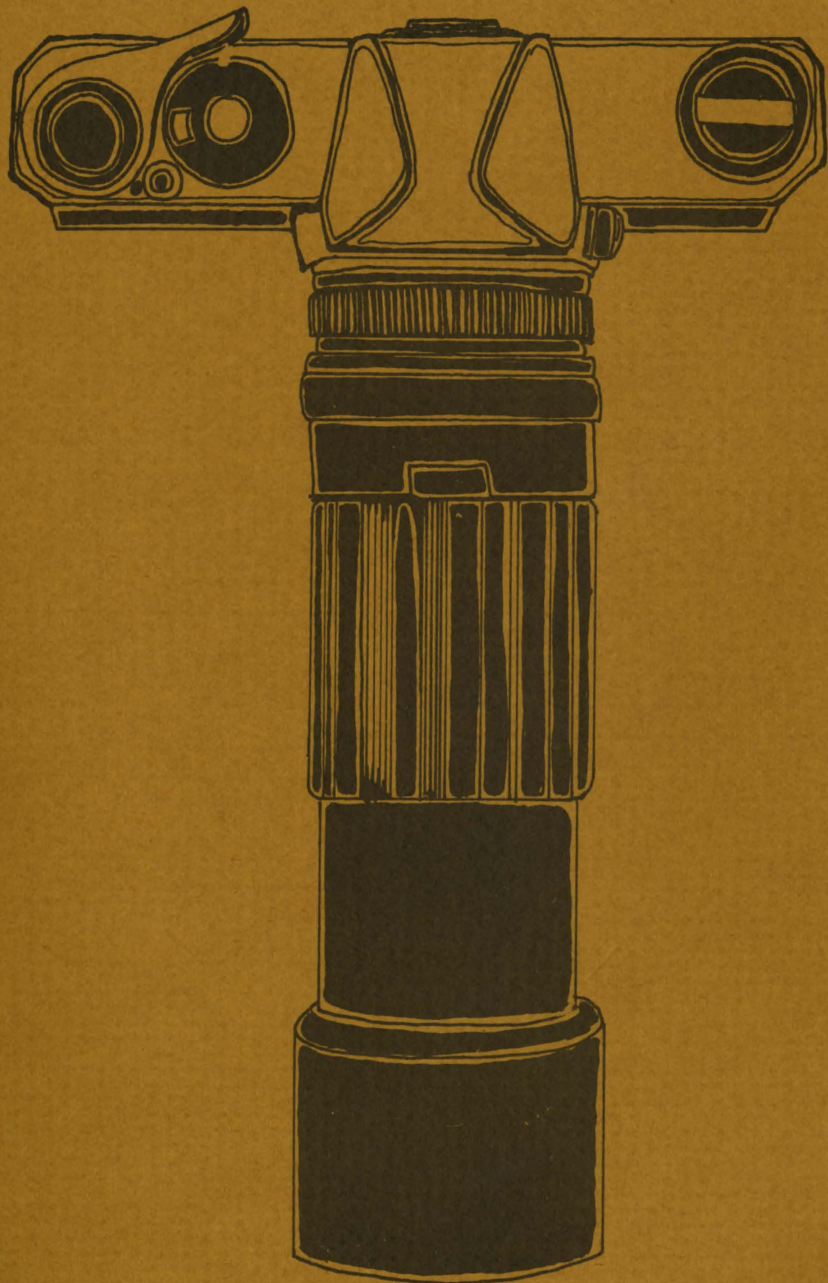

# Media Resources Program

A program designed for the uses of Audiovisuals in education.

# Photography

The photography program includes:
camera operation (35mm and larger formats), lighting, developing and printing, special graphics techniques and basic colour processing; applications in photojournalism, displays and educational aids such as slides, filmstrips and study prints.

# Audio

The audio program includes:
interviewing, scripting, editing and mixing techniques; and applications in documentaries, dramatic formats, sound tracks for film, TV and multi-media productions and special educational materials.

## Television

The television program includes:
camera work, editing, lighting, sound,
directing and graphics; working with ½ inch
and 1 inch videotape systems, portable and
full studio work is done, for application in
documentaries, educational TV, micro-
teaching, and CATV programming.

## Film

The film program includes:
basic camera work, editing, lighting for cine,
animation, documentary production, theatrical
continuity films, sound, and double-system
synchronized sound work. The Department
now works only in Super 8mm.

# Graphics

The graphics programs includes:
basic work in colour, design, typography and layout, with applications in silk-screen, printing, overhead transparencies and graphics for other media.

# Course Outline

## ASSOCIATE IN ARTS AND SCIENCE DIPLOMA

|  | Credit Hours | Studio Lab Hours |
|---|---|---|
| Major Program Requirements | 81 | 36 |
| General Education Requirements | 0 | |
| Recommended Courses | 0 | |
| Electives | 6 | |
|  | 87 | 36 |

### FIRST TERM

| | | Credit Hours | Studio Lab Hours |
|---|---|---|---|
| **Technology 183** | Theory and Applications of Photographic Production | 6 | 3 |
| **Technology 152** | Graphics for the Media Specialist | 3 | |
| **Technology 154** | Media Applications I | 6 | |
| **Technology 161** | Introduction to Technical Applications | 3 | |
| **English 150**[*1] | Communications | 3 | |
| | | 21 | 3 |

### SECOND TERM

| | | Credit Hours | Studio Lab Hours |
|---|---|---|---|
| **Technology 153** | Film Animation | 3 | |
| **Technology 185** | Advanced Photography | 3 | 3 |
| **Technology 151** | Graphics for Multi-Media Productions | 3 | |
| **Technology 171** | Small Format Television | 3 | |

| Choice of: | | | | |
| Technology | 263 | Technical Applications— Systems Design | | 3 |
| or **Elective** | | | 3 | |
| | | | 15 | 24 |

### ADDITIONAL COURSES

Include Theories of Learning, Instructional Design, Communications and the operation of Resource Centres.

Students will make visits to a variety of Resource Centres. Each student will spend a period of one month in a practical work situation.

The program leads directly to employment in the Educational Media field and students will be given every assistance to find employment through the program prior to their graduation.

# How, When, Where....

Persons over 18 years of age or with Secondary school graduation are eligible for admission to the College and this program. Candidates for the Media Resources Program must be interviewed by the program co-ordinator in May or August. Admission is based on portfolio, past work and experience in related fields, general ability and the applicant's interests.

College fees are $7.00 per credit hour, to a maximum of $100.00 per semester. In addition, students in the Media Resources Program should expect to pay $25.00-$50.00 per semester for supplies.

In addition to the full-time 2-year program, the Department offers extra sections of some of its courses, for other students of the College and the community.
