OPEN MEETING WITH JOHN BREMER (Provincial Education
Commission) - 8 p.m. - Cafetheatre

PARKING

From requests received, the following Revised Reference has been defined:

No separate parking spaces will be provided for one group, i.e. Administration, Faculty, Staff, Students.

All parking spaces are to be occupied on the basis of "First Come, First Served" by the above groups.

Visitor parking spaces are reserved for visitors from outside the above groups.

- K.H. Thiel, Bursar

OIL SPILL ASSISTANCE

The willing response of students, faculty and staff to the call for assistance to clean up the recent oil spill is gratifying to note. News of the help of all concerned carried as far as Bellingham, where KARI news commented on our community college that has such a "good community spirit that it cancelled some of its classes so that its students could help clean up the oil."

Thanks go to everyone concerned.

TRAINING FOR ADULT EDUCATORS

U.B.C.'s Centre for Continuing Education is offering a seminar on Individualized Instruction. Fee for the course is \$15 and it will take place Friday, October 5 starting at 8:30 a.m. Further information from U.B.C. Centre for Continuing Education.

WUSC INTERNATIONAL SEMINAR FOR COMMUNITY COLLEGES

The World University Service of Canada is offering an International Seminar for Community Colleges in 1974 in Central America. Present plans are for a group of approximately 25 students, 4 faculty members including an Academic Director, and an Administrator to study and travel for a period of four to five weeks in Central America.

Approximately 25 students from community colleges in Canada will participate. The WUSC National Committee will make the final selection of students to ensure a balanced group with a fair proportion of participants from every region of Canada and representatives from as many faculties as possible.

Deadline for Applications: November 12, 1973. For further information, contact Student Services.

ODDS AND ENDS

Bev Reid (English Department) had a baby boy last weekend. It weighed about 8½ pounds - no name so far.

Greg Lee corrected us on his baby's weight--it was 8 lbs. 14 oz (4.03 kilos).

Penny Le Couteur (Chemistry) wants everyone to save any cartoons they find which have a scientific theme. She uses them for her directed study modules.

Penny also notes that she has had to turn out numerous car lights in the parking lot. Maybe everyone can remind all their students to turn out car lights (their own and any others that may have been left on).
