

BUILD PRACTICAL SKILLS

AT CAPU, WE CELEBRATE THE CHALLENGES AND LESSONS THAT COME WITH HANDS-ON LEARNING ACTIVITIES.

Our graduates stand out in the workplace because they have learned by doing and are better able to think on their feet and adapt to change. As a CapU student, you will be mentored by faculty who are at the top of their fields, and you will learn in small, interactive classes that allow for lively discussions, collaborations and practice-based learning.

From work practicums and study abroad adventures to applied research and work-integrated learning projects for local organizations, these practical experiences will help you develop the skills, knowledge and confidence to make your mark in your chosen field.
