

NOW Orchestra Workshops

Fall 2008

For over 17 years, the New Orchestra Workshop Society and the Western Front has presented an annual workshop series aimed at educating musicians at all levels of ability in the varied techniques of improvised music. Each week, a different facilitator will present his or her own approaches to this music. Artists from around the world bring their own unique perspectives to the spontaneous creation of music. The facilitators are recognized performing musicians, but in addition they may be from other disciplines such as dance, film, visual arts or the spoken word.
